LinkedIn: linkedin.com/in/shivansh-teotia | GitHub: github.com/ShivanshCode18

SKILLS

Languages: C++, Java, C, Python, SQL

Frameworks: Numpy, Pandas, Scikit Learn, Matplotlib, TensorFlow, Seaborn, Folium, Keras

Tools/Platforms: VS Code, Google Colab, Microsoft Azure, Power BI, Excel, Open Router API, Git, GitHub, MySQL

Soft Skills: Leadership, Adaptability, Team Work, Work under Pressure, Communication

EXPERIENCE

Operations Manager, Untangle – Student-led Organization Aug 2023 – Aug 2024

- Managed operations for 10+ events including hackathons, workshops, panel discussions, concerts, and entertainment shows.
- Coordinated with technical, creative, and logistics teams to ensure smooth event execution and high student engagement.
- Streamlined planning processes, reducing event preparation time by 25% and improving on-ground efficiency.

PROJECTS

Real Time Social Media ETL Pipeline Dec 2025 – Jan 2026

- Engineered a production-grade ETL pipeline using Python, Apache Airflow, and AWS (EC2, S3) to extract, transform, and store 100K+ tweets daily from the Twitter API for large-scale analytics.
- Automated data workflows by deploying Airflow DAGs on AWS EC2, achieving 95%+ scheduled job reliability with robust monitoring, failure handling, and recovery mechanisms.
- Architected a scalable, cloud-optimized data infrastructure using Amazon S3, efficiently managing 10GB+ daily unstructured data streams to support downstream processing and analytics.

Product Safety Analyzer: Predictive Analytics & ML Project Dec 2025 – Jan 2026

- Built an end-to-end predictive analytics system to assess and forecast product safety risks using historical product, compliance, and incident data to enable proactive risk mitigation.
- Performed advanced data preprocessing and feature engineering, including data cleaning, encoding, scaling, and class imbalance handling to enhance model robustness and reliability.
- Developed and optimized multiple supervised machine learning models (Logistic Regression, Decision Tree, Random Forest) using cross-validation and hyperparameter tuning, evaluating performance with accuracy, precision, recall, F1-score, and ROC-AUC to drive data-informed decision-making.

EDUCATION

Lovely Professional University, Punjab, India Aug 2023 – Present
Bachelor of Technology in Computer Science and Engineering; CGPA: 7.26

Lord Buddha Public School, Kota, Rajasthan, India Mar 2021 – Jun 2022
Higher Secondary Education
